

ACUTEK Pressure Gauge

PRESSURE GAUGE (YND31)

Description & Features:

The gauge features a durable 304 stainless steel case and crimped ring, ensuring resilience in various environments.

Applications

widely used in plumbing, water tanks, air compressors, petroleum, chemical, chemical fiber, electric power, etc.

Specifications

Dial Diameter: 2", 2-1/2", 3", 4"

Bar: 4, 6, 7, 10, 16, 25

Pressure Range: 0 to 1000 bar

Pressure conversion: 1mpa=10bar=9.8kg=142.2psi=1000kpa

Filling Solution: glycerin

Temperature Rating: -10° to 180°, relative humidity 85%

Material

Case: 304 Stainless steel

Movement: 304 Stainless steel, 316 Stainless steel

Thread: 304 Stainless steel, Brass
